

**Simpósio Brasileiro de Exploração Mineral - SIMEXMIN 2012**  
**Brazilian Symposium on Mineral Exploration; May 20 a 23, Ouro Preto - MG, BRAZIL**

**ABSTRACTS - POSTER SESSION**

Dear Colleague,

**SIMEXMIN** is a reference, biannual symposium promoted by the Agência para o Desenvolvimento Tecnológico da Indústria Mineral Brasileira – ADIMB. It is a forum that congregates the Brazilian and international mineral exploration communities where their advances and challenges are discussed for this sector. The topics are varied, encompassing technical, economic, political, legal and financing themes (<http://www.adimb.com.br/simexmin2012/simexmin/>).

**SIMEXMIN** will take place in the historical town of Ouro Preto, between May 20 to 23<sup>rd</sup>. In keeping with earlier initiatives of the 2004, 2006, 2008 and 2010 **SIMEXMIN**, we are organising a Poster Session which, we hope, will be as successful as the previous ones. The novelty in 2012 is that the best presentations will be awarded prizes.

In order to guarantee that your contribution will be accepted for the Poster Session, Abstract(s) must be submitted to this coordination no later than **MARCH 1<sup>ST</sup> 2012**. Abstracts will be published in the event CD-ROM.

The **rules for Abstract preparation** are indicated below, and must be strictly obeyed. The Abstracts will be revised and eventual corrections may be requested to authors.

We would like to use this opportunity to ask you that this message is distributed to your colleagues. Thank you. We hope to hear from you soon! Sincerely yours,

Prof. Lydia M. Lobato & Rosaline C. Figueiredo e Silva  
([lobato@netuno.lcc.ufmg.br](mailto:lobato@netuno.lcc.ufmg.br)) & ([rosalinecris@yahoo.com.br](mailto:rosalinecris@yahoo.com.br))  
Av. Antônio Carlos 6627, Campus Pampulha  
Belo Horizonte - MG, CEP 31130.008

XX  
**RULES FOR SUBMISSION OF ABSTRACTS**

These are the topics of interest to be followed:

- 1- Government programmes and policies for mineral exploration; 2- Industry programmes for mineral exploration; 3- Geophysical methods applied to mineral exploration; 4- Geochemical methods applied to mineral exploration; 5- Characterisation and-or genesis of mineral deposits; 6- Geological-metallogenic Brazilian environments; 7- Remote sensing, GIS, data integration and interpretation; 8- Conflict zones and challenges in mineral exploration; 9- Mineral exploration financing.

The **Abstract** must represent a synthesis of the research/study **RESULTS**, in a direct, clear, informative and concise language. Start by presenting the focus of the work: new data/experiments; review in progress; new technique; synthesis, etc. The Abstract is a telegraphic version that condenses and concentrates essential information and results of the finalised or on-going work, and not the intended work of the author(s).

The **Abstract** should be forwarded as a Microsoft Word® file to either [lobato@netuno.lcc.ufmg.br](mailto:lobato@netuno.lcc.ufmg.br) OR [rosalinecris@yahoo.com.br](mailto:rosalinecris@yahoo.com.br). The text must be revised by someone familiar with the English language.

- . (i) No more than 500 words, including title, authors, e-mails and their institutions (next to each name, in parentheses; ex.: Lydia Maria Lobato ([lobato@netuno.lcc.ufmg.br](mailto:lobato@netuno.lcc.ufmg.br)); UFMG-IGC, Belo Horizonte);
- . (ii) Be presented in an A4 page with 2.0 cm margins at right, left, top and bottom;
- . (iii) 1.5-cm line spacing, skipping one line between the title and authors, and one line between authors and abstract text.

No photos, illustrations, charts, tables, formulae and bibliographic references are allowed.

TITLE: Arial 12, bold, aligned left; AUTHORS AND INSTITUTIONS: Arial 11, italic, aligned left; ABSTRACT TEXT: Regular Arial 11, justified.
